

# THOMPSON

Strengthening Children, Families & Communities

## Thank You for Supporting Children and Families in 2020

No one could have known how COVID-19 would change everything when Thompson acquired A Child's Place (ACP) in February 2020. Thanks to caring friends like you, Thompson was able to change the model from a school-based program to a community-based intervention.

When schools closed, the new ACP didn't stop serving families. Because of you, as more families were displaced, Thompson was able to provide housing to families on our Matthews campus. Without your support, ACP would likely not have been able to survive.

*We hope you can see how much your impact has made in the lives of children and families at ACP. Thank you!*

### IN THE FIRST YEAR

#### Services You Made Possible

Provided over 1,500 family case management interventions.

Completed over 100 Comprehensive Clinical Assessments.

Distributed food to 200+ families = 3,250 individuals.

Made 360 referrals to community resources.

Sustained 38 families in pay-by-week motels.

### THANKS TO YOU

#### This entire family has a fresh start

The Johnsons started having housing problems two years ago after Ms. Johnson was forced out of work due to a sudden medical condition. She fell behind on rent and their family was evicted. They had to live in a hotel at an expensive cost of \$1,700 a month.

**That's where you stepped in.**

The Johnsons were offered temporary housing at Thompson's campus and assigned an ACP social worker. We would not be able to offer this kind of arrangement if it wasn't for your support. Her social worker connected her with community resources to help find stable housing and they successfully moved in at the end of 2020.
