

THOMPSON

Strengthening Children, Families & Communities

Monthly Newsletter

December 2021

As we close out the calendar year, we take time to reflect on our positive impact on children, families, and communities. We are grateful for your support throughout 2021 and look forward to keeping you **In the Loop** in 2022. Interested to know more about any of the updates? Email info@thompsoncff.org and we'll get you in contact with the appropriate team member.

Thompson's Highlights of 2021

We have expanded our services and programs into both Florida and South Carolina.

We achieved 31% growth in Foster Care homes from January to December 2021 - increasing from 229 to 300 homes from the NC mountains to the coast.

We increased the Thompson team by 26% from January to December 2021 - that's 71 more folks working on our mission.

95% patient satisfaction across all programs.

100% of children discharged from our Foster program had no need for higher level of care or psychiatric hospitalizations.

100% of youth enrolled in our new Crisis Stabilization Program completed all needed assessments and evaluations within 14 days of admission.

Thompson placed the first teens into our newly launched Treatment Foster Care Oregon program, the first agency to bring the evidence-based service to NC.

100% of families enrolled in Wraparound had no psychiatric hospitalizations, no new legal charges or CPS involvement within 90 days of discharge.

Intensive In-Home Therapy - 100% of clients continue to have not experienced re-hospitalization post successful discharge.

97% of children enrolled in Thompson Child Development Center met or exceeded their developmental expectations, as measured by the Teaching Strategies GOLD assessment.

100% client satisfaction in our A Child's Place program - with all families more confident in their ability to meet their needs upon completion.

Our vision: All children healthy, all families thriving, all communities strong.
