

EARLY CHILDHOOD

Child Development Center [Clanton Road, Charlotte, NC](#)

Five star, high-quality child development center with an emphasis on family support and developmentally appropriate practices for children six weeks old to five years.

Child First

Evidence-based model designed to work with the most vulnerable young children – prenatal through age five – and their families to decrease serious emotional disturbance, developmental and learning problems, and abuse and neglect.

Early Childhood Mental Health

A team of therapists specializing in evidence-based practices for children ages 0-8 years so behavior challenges can be addressed proactively.

FAMILY SUPPORT & STABILITY

A Child's Place

Specialized case management to improve the lives of children and their families experiencing homelessness, focusing on three key priorities: access to resources, engage in healthy and supportive relationships, and increase self-sufficiency.

Child Welfare Case Management [Hillsborough County, FL and Upstate SC](#)

Intensive case management program with goals to stabilize, connect to services, and create permanency plans specific to the youth experiencing out-of-home care.

Family Education

An array of evidence-based and evidence-informed education classes for parents/caregivers with children of various ages, aimed at creating a strong foundation for successful parenting.

Family Partners

A team of caring peer support partners with lived experience who guide other parents through navigating the child welfare systems.

Foster Care Services

- Private foster homes located across North Carolina providing basic, therapeutic, and respite care to youth & 24/7 support and evidence-based training to foster parents.

-**TFC-O/Teen:** A short-term (6-9 month) intensive, community-based treatment foster care program focused on serving high-risk teens with a 5-person support team which can prevent the need for residential group care.

Friends of the Children - Charlotte

Evidence-based life navigation program that provides a salaried, professional mentor to Charlotte's most at-risk youth for 12.5 years, no matter what. With our two-generation approach, we are leveraging our proven model to impact generational change for both youth and caregivers.

All Children Healthy, All Families Thriving, All Communities Strong

MENTAL HEALTH

COMMUNITY-BASED SERVICES

Family Centered Treatment

Home based treatment to stabilize youth & families who have experienced trauma, and those experiencing complex mental health symptoms. The goal being to eliminate out of home placements and higher levels of care.

Intensive In-Home

A high intensity, home-based service which works with youth and families multiples times per week in their home and community as well as providing 24/7 on-call support.

Multi-Systemic Therapy (MST) SC

An evidence-based practice based on the belief that a youth's behavioral problems are often due to multiple factors; MST uses multiple therapies and approaches to resolve them.

Outpatient Therapy Services Available in person and virtual

Individual, family, and group counseling, and high quality clinical assessments. *Available through private insurance & Medicaid.*

School Based Therapy

Mental health services to school aged youth provided via outpatient therapy during the instructional day at select Charlotte-Mecklenburg Schools.

High-Fidelity Wraparound

An evidence-based model that helps empower youth and families to find their voice and develop the skills necessary to successfully navigate various systems such as juvenile justice, child welfare and the school system. Wraparound approaches their work from the philosophy of "Do for, do with, cheer on!"

RESIDENTIAL SERVICES - NC

An array of trauma-informed residential treatment programs for the most vulnerable and traumatized youth in our communities within safe, youth-friendly living environments including;

Enhanced Residential Treatment Center, short-term 24/7 therapeutic care for youth ages 11-17 diagnosed with a mental illness, providing Family Centered Treatment and/or High-Fidelity Wraparound to youth and their families prior to their return to home environments;

Adira, a PRTF program provided to adolescent females ages 12-17 diagnosed with a mental illness and involvement in human trafficking;

Crisis Stabilization programs providing brief, intensive clinical care for youth ages 12-17.
