

helping children thrive because of you, Owen is home.

Owen is a 16-year-old who loves animals, cars, and dreams of studying auto mechanics someday. When he entered foster care, he carried deep anxiety and grief after experiencing significant trauma at home.

Because of your support, Owen and his foster family were able to access therapy, mental health services, and consistent care available in a Thompson foster home.

Today, Owen is no longer overwhelmed by anxiety—and he’s about to be adopted. Your generosity helped turn uncertainty into stability and gave Owen the chance to move forward with hope. *Thank you for making this possible.*

THANK YOU for helping Owen feel hopeful about his life and future.

“I am thankful for the patience, encouragement, and support from my foster parents and foster care coordinator.”

~ Owen

BE THE ONE WHO SHOWS UP for a child in foster care

Every day, children in foster care arrive carrying more than a small bag of belongings—they carry loss, uncertainty, and the hope that someone will show up for them.

That someone is you.

Because of generous supporters like you, foster children receive therapy, clothing, school supplies, and individualized care to feel safe and begin healing. Your gift does more than meet basic needs—it restores stability, builds confidence, and reminds a child they are deeply valued.

Will you make a gift today to ensure every child in foster care has the support they deserve?

Your compassion can provide comfort now and create brighter tomorrows.

GIVE TODAY to help a child in foster care have the support they deserve.

FROM OUR CEO

Right now, *there is only one foster home for every two children in foster care in the Carolinas* — a crisis demanding urgent community attention and action.

Thompson is committed to a home for every foster child. We are focused on preventing children from entering foster care while also expanding the capacity needed to serve those who need a family setting.

If you believe North Carolina's most vulnerable children deserve better, use your voice. Advocate. Share. Partner.

Because the future of care depends on more than policy — it depends on all of us.
